

### Upcoming Key Events

- ∞ **23<sup>rd</sup> November at 3:30pm**  
Webinar – Curriculum Communication
- ∞ **8<sup>th</sup> December**  
Start of reward tips
- ∞ **15<sup>th</sup> December from 2:30pm**  
Parents Evenings and Learner portraits

### Things to Note

- ∞ **Christmas Fayre.** Our first Christmas fayre on the last day of term is set to have many exciting stalls, including a tombola. Do you have any donations to help make this a success? We are particularly looking for Tombola prizes!
- ∞ **Thank you's.** Thank you to Buxhall Farm, Histon for donation of our Christmas tree, which will be displayed in reception and to Phoenix for the wonderful cakes on our open day on the 22<sup>nd</sup>.

### TCS this past week

- ∞ Watson began looking at our new book, "Coming Home". We listened to the story together and talked about the robin's thoughts and feelings during its treacherous journey. We also learnt about vertebrates and invertebrates in science this week and decided that the robin was a vertebrate.
- ∞ This last week Tajiri have been looking at the difference between physical and human geography and we also looked at some key roles people have in creating a safe and secure community.
- ∞ Grandin have been working on connectives in sentences and created a collaborative paragraph in creative writing about Darth Vader in the woods. We have been working very hard on drawing shapes to scale in maths and made *missing pets* fliers in IT. One of us lost a pet dinosaur!
- ∞ This week Davis class have continued to use their imagination to design a new room for the Charlie and the Chocolate Factory story and have started planning their new chapter. We have investigated the meaning of colours around the world and created a collaborative piece of art to represent each colour.
- ∞ Thunberg have been extending their knowledge of area in Maths this week as we started looking at the area of compound shapes. They showed great teamwork in helping each other problem solve the maths questions set.
- ∞ This week in Williams we have been looking at money in Maths and starting to analyse Character Descriptions ready to write our own. We have enjoyed looking at the Digestive System in Science too.
- ∞ Eilish have been hard at work on their new class book Macbeth. They have eagerly taken up reading roles in the script and have accompanied this with a modern animated version to watch. They have now also got to the costing stage of their class Christmas dinner that they are organising.
- ∞ Turing have been looking at their 3D art through animals using shading to make them feel like their art were coming off the page. Linking our IB theme into Maths has seen Grandin experimenting with time zones around the world.
- ∞ In English Beadle have been identifying techniques used in advertisements such as emotive language, rhetorical questions and understanding the impact of the reader.

### Webinars, Links and Resources

#### Open Event.

If you were unable to attend our opening event you may have missed some of our speakers. Snippets from Sam Holness and Dean Beadle are available on our Twitter account. We were also privileged to have personal messages of support from Holly Smale (Successful ASC Author) and Chris Packham Wildlife presenter.

The videos from Holly and Chris are available on our website. <https://thecavendishschool.org.uk/celebrations-at-tcs/>

*"Congratulations TCS on what you have achieved so far! Amazing work you all do!"*

### Outstanding value shown this week

School Value: Reflective – Iza. It takes a lot to reflect on our behaviour in the moment and make changes. Iza was a champion for our school Ethos and Values, sharing these with his friends and supporting them to do the same!
